A GIFT FROM SAMT KIRPAL SINGH JI MAHARAJ

SOME OF MASTER'S LETTERS

AUGUST 1976
August 12, 1976

Dear Initiates and Sincere Seekers,

We are sending to you a few of Master Sant Kirpal Singh Ji Maharaj's letters to His Initiates so you can personally feel the Guidance that these instructions gave to the recipients. By sharing their letters we can benefit by the Master's continued Radiation that governs each one of us.

I trust that you miss Him less because you have moved closer to Him on the inner plane. He is closer than our breath. His Guidance and instructions will live forever in each one of us as we try to follow His last commandment:

"BE GOOD; DO GOOD; BE ONE"

Cordially, in the Name of the Living Master,

Reno H. Sirrine
All scriptures handed down the ages are conclusive that 'God is Spirit' - moreover 'God made man in His own image'. The image cannot be but spirit.

As God is Infinite, i.e. not subject to death, then man in his own essence can also be not subject to death - he is conscious entity, a drop of the ocean of all consciousness, an indweller in the body, and on account of that the body is working. God is a living Presence within our being - controlling us in the body. Both soul and God reside in our bodies, but we are identified with the body so much so that we have forgotten our own self. We are under a grand delusion and cannot see the world in its right perspective. Unless we know ourselves by rising above body-consciousness, how can we know God who is residing with us in the body? Truly speaking, man-body is the temple of God. We should therefore be conscious of our Divine Nature, and try to regain our Godhead. For that, you turn away completely from outside and outgoing faculties for a while, and close yourself in the closet of your body. The Ringing Radiance of God will become effulgent.

God is eternal, all wisdom, all happiness, so you are the same. Mind that you and God are one; you can never be separated. He is ever with you, enlivening you. His life is your life, and you cannot live without Him - so you have nothing to fear.

Man is what he thinks about all day long. One can only live one moment at a time. Emerson said "There is no moment in eternity more important than this moment". All real good or evil that may befall him is from himself. If a man lives in a good or bad way in the real present, he will ensure the same in the future. If you have bad thoughts for others, you will harm not them only but yourself as well, as thoughts are very potent.

So try to live in the living present, forgetting the past and the future - and fill every moment of your life with simple trust in Him in all loving devotion. He will manifest in you when you choose and turn your face to Him. As loving advice I give you, from this moment let love be your constant companion and trust Him in all things. God is love and love is God, and the way back to God is also through love. Guru Gobind Singh says "Hear ye all, I tell the truth: God is attained through love."

Rest assured that He is with you always, and be of good cheer.

With all best wishes, Yours affectionately,

Kirpal Singh

(KIRPAL SINGH)
Dear

Your loving letter of October 20th is to hand.

It is unfortunate that you have not been regular in meditations as a result of which you are not enjoying inner perceptible results. You should give a humble start to spiritual practices and achieve a target of at least two hours daily in your own interest. Giving time to Simran and Bhajan is as important for the soul as food for the body. Hence, you should not miss any day without meditations.

I am sorry to note that you feel prey to bad habit of smoking and taking marijuana which are not only harmful for physical health but retard spiritual progress. You should give up partaking of tobacco and marijuana immediately.

Repetition of charged names given only by a competent Master are valid. You are fortunate to have been accepted by the Master in His sacred fold. Having some inner experiences before initiation may be due to favourable background. But further way opens only after getting initiation from a living Master who gives first-hand experience of Light and Sound Principles by His own life impulse.

Regarding marriage, you should consider the issue and decide on merits. Married life is no bar to spirituality if conducted according to scriptures. Marriage means taking a companion in this life to stand by in weal or woe, and both should work together for meeting God.

You should benefit from local Satsangs by attending regularly.

With love and best wishes,

Yours affectionately,

(Kirpal Singh)
Ref. No. 

Dear

I have received your loving letter of post dated January 18, with spiritual diaries for the past several months and noted their contents.

Thank you for the good wishes and greetings conveyed on the eve of my physical birthday which I gladly reciprocate for your physical health and spiritual progress.

It is unfortunate that you had indulged in sensual enjoyments with consequential physical and mental suffering. However, your deep regret and courageous confession is noteworthy. You are advised to forget all about the past and draw a thick curtain to start again with fresh zeal and renewed fortitude. You should pursue the disciplined mode of life as enjoined by the Master based on the holy commandments which will enable you to rebuild your mental and physical health. My love and blessings are with you.

You should set aside some fixed time for meditations and stick to it with firm faith and religious regularity. If you will pursue this routine with deep faith for a few weeks, you will develop receptivity and your mind will relish to continue joyously.

I wish you to be lovingly and regularly devoted to your holy meditations with deep faith and sacred earnestness. Master-Power working constantly overhead will be extending all feasible help, grace and protection.

With love and best wishes,

Yours affectionately,

(KIRPAL SINGH)
April 1, 1963.

Dear

I have received your loving letter of March 18, 1963, and noted its contents.

I am glad for dear to Whose case has again been deferred for 90 days and that she has been granted pardon on two-counts with the grace of the Master. The gracious Master Power tones down the liquidation of Karmic debt and the disciplined initiates enjoy the divine grace in great abundance. Your help and encouragement for the dear one is appreciated.

Holy vibrations getting strong at times is equally auspicious. It is the manifestations of divine grace when the child disciple is filled with divine ecstasy and the whole physical frame is filled with awe inspiring gratitude. Your sublime experience of having been blessed with the same during your presence in the Sunday service while escorting your patients out there is appreciated. As a matter of fact, the gracious Master Power works in His immaculate way and the initiates are very often made as useful channels for the benefit of suffering humanity. A disciplined initiate leaves behind indelible impressions of divine order on anything he/she touches mentally, which serves as a seed for future germination. You should know it for certain that you are never alone, and the gracious Master Power works at times for the uplift of forebom and down trodden through you. Yet self denial and self abnegation be the ennobling virtues which transcend all growth and the initiates are transported into the realms of pure bliss and harmony.

I am glad for your holy meditations to which you are lovingly devoted with His grace. The celestial manifestations of divine lights and holy sound current of bells are the cardinal expressions of divinity within. You should not try to follow the sound current, but keep yourself fully absorbed in its rapturous listening; it will draw closer, grow stronger and ultimately come from above. The inner bliss from listening comes gradually, when one is attuned hundred percent, and hears for a considerably longer periods. You can gradually increase the time for this practice. It is the inner silence which becomes vocal with His grace.

I have been informed about the passing away of dear Ann Martin, who was a dear loving soul, and was blessed with divine protection in the Beyond.

With love and best wishes,

Yours affectionately,

(Kirmal Singh)
I have received your loving letter of March 25, 1962 and noted its contents.

Your application for initiation was received and the same has since been sanctioned in my letter of March 10, 1962 to Dr. Lovelace. I hope he must have notified the same to you and you must have managed to receive the necessary instructions of initiation by now. Please confirm.

I am glad to find that you have since adjusted yourself to the restricted diet, which is one of the essential basic prerequisites for taking up the Holy Path. For the elimination of your trouble with the joints, arms legs, due to this switch over, you may consult Dr. Dona Kelley 1305, Palm Ave. Beaumont, who is an authority on diet and can advise you some useful combinations of food, which would be helpful to you.

I note about your seeking for a good position in a large concern, which when matures will enable you to have regular hours of work and leisure. You may look up for the same. My best wishes are with you.

It is good that you are attending the Satsang meetings held over there, which you find immensely helpful. The gracious Master Power radiates loving life impulses for the congregations and all attending derive much spiritual benefit with His grace. Your direct mental and spiritual contact with the Master denotes His loving protection being extended to you. Verily a subtle link develops between the gracious Master and the disciplined child disciple when the latter grows in receptivity with the grace of the Master. After your holy initiations, you will find it more and more developed when your intellect will be rarified and the spirit is suffused with the Holy Naam - the God-into-Expression Power.

With love and best wishes,

Yours affectionately,

Kirpal Singh
(Kirpal Singh)
Dear

I am in receipt of your loving letter dated December 10th, 1973 and note its contents.

I am glad that the Board meeting was a smooth one where the dear ones sat in sweet peace and harmony. I note that you had spent a day or so at Mr. Sharma’s farm and visited the dear ones who were there and who were enthusiastic to get the place activated.

...is dear to me as ever and I have best wishes for her. The Master’s love is always there for the dear ones and when they turn their faces to Him they will be benefitted.

The Perrins were here and Steve Melik and some others are likely to come here at the Conference time.

UNITY OF MAN CELEBRATIONS:

The proposed conference in fact is a projection of Birthday Celebrations by the dear ones. Unlike past conferences held at the level of Religions, which had done some good, this convention is being organised at the level of Man as envisaged by the Aishis and Saints in the past so that it may help lead to true integration which is the greatest need of Mankind today.

I shall be glad to meet the Group Leaders and others who will be coming to the conference as Patrons or Delegates etc., and who will have an opportunity to meet the dear ones here who will welcome them warmly.

Cheque No. 0930038 dated December 14, 1973 for £ 20.00 favouring General Manager, Unity of Man is returned as the account that we have here for the conference is as ‘WORLD CONFERENCE OF UNITY OF MAN’ DELHI. Your application for Membership has been received and placed in file. Incidentally the requisite fees for delegate or delegate cum reception committee member is £ 20.00 or 30.00 respectively plus one hundred dollars each.

With all love and best wishes,

Yours affectionately,

[Signatures]

Kirpal Singh
(Kirpal Singh)
Dear

I have received your spiritual diaries for the past five months ending June 1971 and noted their contents.

I am glad to note that you are devoting regular time for holy meditations with the grace of the Master. You have not stated about the inner experiences had in the vision and audition practices which should have been recorded briefly in the column provided for the purpose. This should please be noted for future guidance which shall enable you to have feasible instructions where necessary.

The divine revelations of light and sound principles can be ensured by accuracy, absorption and steadfastness. It is the inner sincere yearning of the soul which counts and invokes divine grace. However, regular, faithful and accurate meditations do bring in much of inner peace and progress. Such a disciplined routine of life not only ensures steady progress on the Path but goes a long way for meeting with the challenges of life which at times grow severe by the reaction of past Karma, when the child disciple can smile away while standing firmly on the rock of faith and fortitude.

I wish you to be lovingly and regularly devoted to your holy meditations with deep faith and sacred earnestness. Master Power working constantly overhead will be extending all feasible help, grace and protection.

With all love and best wishes,

Yours affectionately,

(KIRPAL SINGH)
Dear

I have before me your letter of June 19, 1972 and post-script thereto of June 24 along with your diaries April to June.

It may seem to you that you are in a rut, but certainly it is not so. The progress may be slow or not to your expectations - that is a different thing. The Master Power alone is the judge of each measure of advance, the extent thereof, the time when to make the same appreciable to you.

The divine path is essentially the path of love and needs no efforts on your part. Everything comes about effortlessly. This is why it is called Sehj-yoga. You have simply to relax and give yourself up to the higher, holier and healthier influences of the Master Power. You be an empty real to be played upon. If you do so, you will feel no difficulty whatsoever. The trouble with the western mind is that it abhors vacancy, and keeps thinking subconsciously. You have not to 'get your mind anywhere.' It is simply to be ignored as if it did not exist, when you take the attention off the physical self, the physical mind drops off. The secret of success in sitting still and being still. The rest follows of itself.

But in the brain is the result of constant thinking. You should try to shake off this habit. Yours is only to consciously stick to the eye-focus and as you will do so, the mental sphere will narrow down, and calm would follow - neither heat nor un-awareness, for you may be un-aware of the body not of what lies within you. In case of drowsiness or sleep overpowering you, you give up your exercises for a while, walk a little so as to shake off all sloth and sit again, so as to reach unto Him. Learn to wait and watch, and see the result. Do not try to stand in between Him and your self, blocking the way; nor expect Him according to your time-schedule. He will come when He will, like a thief in the night as stated in the gospels and will give you a way-up. My blessings are with you.

Now as to your great desire to be in the physical presence of the Master. Such a longing too has its own advantage. Distance, makes no difference. Since my foreign tour programme is in the offering, you would therefore be well advised to wait for sometime and, hazur willing, I will be in the midst of all of you at no distant time. In the meanwhile, engage yourself heart and soul in your meditations. As the soul is misfit here, so is the mind, but because of its outward tendency through the ages, has forgotten its true home in Trikuti, from whence soul takes on its mental apparatus in its descent to the earth plane. Once it gets taste of higher world, it will run faster than you do.

With kind thoughts and best wishes for you, dear

Yours affectionately,

(Kirpal Singh)
Dear,

I have received your spiritual diaries for the past four months ending July 1970, on return from tour and noted their contents.

I am glad to find that you are devoting time for holy meditations with the result that you see some divine light and hear the holy sound current of high pitched coming from right side with the grace of the Master. Please look lovingly into the middle of whatever you see just in front of you with closed eyes - light or darkness and repeat the charged names mentally, very very slowly, may be at intervals, so that the inner gaze is not disturbed. The light will grow steady, brighter and ultimately open to give you further way up. The sound coming from right side should be listened with rapt attention. It will draw closer, grow louder and ultimately come from above.

The wanderings of mind during meditations should be arrested by more of loving devotion and humility. You can recite some prayer or divine hymn before sitting for holy meditations which will create an aura of receptivity and your meditations will become more easy, interesting and fruitful.

I hope you must be attending the local Satsangs which are invariably blessed with the divine radiation of the Master Power. Satsang serves as a strong hedge around the young sapling of initiation.

Please be lovingly and regularly devoted to your holy meditations with deep faith and sacred earnestness. Master Power working constantly overhead will be extending all feasible help, grace and protection.

With love and best wishes,

Yours affectionately,

(KIRPAL SINGH)
Dear

I have received your loving letter with diaries for the past months and noted their contents.

I am glad to find that you had been devoting time for meditations with the grace of the Master. The inner divine revelations of light and sound principles had by you are auspicious gestures of grace and should be developed further by more accuracy, absorption and steadfastness. It is the inner deep humility and keen sense of self surrender during meditations which invokes divine gaze and the practices become more easy, interesting and fruitful.

You are requested to have fixed time for holy meditations and then stick to it with firm faith and religious regularity. If you will pursue this routine with deep humility for a few weeks, you will develop receptivity and your mind will relish to continue joyously. It is during these blessed moments of divine grace when you are attuned and absorbed within in holy Naam. You should be rest assured that each hit laid for the divine edifice counts creditable for your inner spiritual progress. Regularity, accuracy and steadfastness are the hall marks of spirituality.

It is good that Satsangs are held regularly. Please convey my love to all the members of your group individually.

Please be lovingly and regularly devoted to your meditations with deep faith and sacred earnestness. Master Power working constantly overhead will be extending all feasible help, grace and protection.

With love and best wishes,

Yours affectionately,

(KIRPAL SINGH)
Dear

I have received your loving letter without date on return from a local tour and noted its contents.

I am glad to find that you have since been conveyed the instructions of holy initiation when you were blessed with the inner visions of white and red divine light and sound of bells coming from right side with the grace of the Master. These are the auspicious gestures of divine grace and should be developed further from day to day be regular, faithful and accurate meditations. I enclose a copy of brief instructions for meditating accurately for your guidance and help. Please read and follow them very carefully.

Satsang is a great helping factor for imbibing the sacred teachings in their right perspective and fostering inner devotion for the gracious Master Power. Besides you will be able to enjoy the overwhelming bliss from the charged atmosphere wherein loving life impulses are radiated by the Master Power for the spiritual benefit of the dear ones.

Self introspection for weeding out imperfections in daily life is most helpful for which the prescribed diary be maintained, when you will be able to replace them with opposite ennobling virtues gradually. You may send in your quarterly progress reports in these diaries which shall enable you to have feasible guidance where necessary.

I wish you to be lovingly and regularly devoted to your holy meditations with deep faith and sacred earnestness. Master Power working constantly overhead will be extending all feasible help, grace and protection.

With love and best wishes,

Yours affectionately,

Encl. Instructions.

(KIRPAL SINGH)
Dear

I have received your loving letter of May 20, 1974, and noted its contents.

Your loving aspirations to visit here again for enjoying the personal aura of the Master are appreciated. You may look to your convenience if you can afford to undertake the long voyage during fall, you may have your wish. Please convey my love to your wife.

Your personal testimony for enjoying the rare boon of love divine is noteworthy. The maintenance of diary for self introspection for weeding out lapses in daily life is very much important and helpful, when you can replace them by opposite ennobling virtues. You may refer to the chapter of 'Righteous Living' in 'The Wheel of Life' for understanding more about becoming Karmaleess, which is a far distant destination on the spiritual goal. It is only when you rise upto the causal plane when one loses the sense of doership and not earlier. It is a course of gradual awakening and illumination when you progress step by step on the holy Pāth.

I am sorry for your loss of thumb while at work. Please be careful about your previous person in future by observing all safety measures.

I hope you are devoting regular time for holy meditations and enjoying inner peace and progress with the grace of the Master. Regular, faithful and accurate meditations ensure steady receptivity within and bless the child disciple in all sphere of life.

With all love and best wishes,

Yours affectionately,

Kirpal Singh

(Kirpal Singh)
Dear,

I have received your loving letter of January 1973, and diaries for the past five months and noted their contents.

I am glad to find that you are devoting time for meditations after initiation into the Mysteries of the Beyond, with the grace of the Master. Your deep gratitude for the rare boon is appreciated. Indeed it is great blessing to be accepted and put on the Path. The precious gifts to initiation Vig. light and sound principles should be developed further by more of accuracy, absorption and steadfastness. I enclose a copy of brief instructions for meditating accurately for your guidance and help. Please read and follow them very carefully.

Satsang is a great helping factor for imbibing the sacred teachings in their right perspective and fostering inner devotion for the Master Power. You should try to benefit from the local meetings by attending regularly.

It is good that you enjoyed your short stay at the Sant Bani Ashram. Such like casual retreats to the congenial environments are always helpful for establishing inner receptivity. Your deep gratitude for the appointment of group leader is equally noteworthy. Fortunate are the chosen few who are made instrumental in the divine set up.

Please be lovingly and regularly devoted to your meditations with deep faith and sacred earnestness. Master Power working constantly overhead will be extending all feasible help, grace and protection.

With love and best wishes,

Yours affectionately,

(KIRPAL SINGH)
Dear

I have received your loving letter without date covering your personal spiritual progress on the Holy Path ever since your Initiation and serving as Group Leader – and noted its contents.

I am glad to find that you are steadily growing on the Holy Path when you are devoting regular time and are blessed with the conscious contacts of Divine Light and Sound principles with the grace of the Master. It is the inevitable result of your loving devotion and steadfastness which has blessed you with this rare blessing. You should continue with your loving and selfless efforts for Satsang in all humility and serenity. Regular, faithful and accurate meditations not only ensure steady progress on the Holy Path, but bless you with more of humility to see that the gracious Master-Power has benignly chosen you to serve as a smooth channel for diffusing divine grace to the dear ones in this centre.

I wish you more of peace and progress on the Holy Path. If the Sound-Current becomes too strong to bear, you may have recourse to repetition of the NAMES.

With all love and best wishes,

Yours affectionately,
Dear

I have your loving letter of 23.1.72 with spiritual diaries for the past two months and perused contents thereof.

I am glad to find that you are pursuing your holy meditations diligently, with the grace of the Master. The divine revelations of Light and Sound principle, stated by you, are augur well and should be developed further by putting in more time to each practice coupled with regularity, accuracy and steadfastness. The key note to spiritual success within is to develop the habit of looking into the middle of the Holy Light, intently and minutely, while repeating the charged Names mentally at intervals and listening to the divine melody from the right side with uninterrupted attention. Spectacular results will accrue in due course.

Please weed out your shortcomings and failures by careful vigilance and self-discipline. Particular attention should be paid to the column Chastity in deed as it provides a fertile soil for the holy seed of spirituality to thrive best.

I am glad to note that your weekly local satsang is going on alright with the grace of the Master. Such holy congregations are invariably charged with the divine radiation as experienced by you. Please convey my love to all dear ones over there.

Your love offering of $40.00 does not appear to have been received over here. You can investigate the matter with your postal authorities.

It is so nice that your dear sister, , is very much interested in the path and is following the vegetarian food. She may read the literature books which she can easily understand.

Regarding changing your time from teaching to Medical after obtaining degree in Medicine, you may see if it is possible for you. The idea is grand indeed.

I would wish you to carry on with your faithful meditations in a spirit of dedication. The gracious Master Power overhead will be extending all feasible help, grace and protection and more to those who live upto his words in letter and spirit.

With all love and best wishes;

Yours affectionately;

(KIRPAL SINGH)
RUHANI SATSANG

SAWAN ASHRAM
GUR MANDI, DELHI-7.
(INDIA)

Ref No. 

Dated April, 12, 1971

Dear

I have received your spiritual diaries for the past four months and noted their contents.

I am glad to find that you are devoting time for meditations with the grace of the Master. The occasional revelations of stars and sound of bells coming from right side are auspicious gestures of grace and should be developed further by more of accuracy, absorption and steadfastness.

You are advised to refer to my latest circular letter of February 20, 1971 which contains exhaustive instructions for the benefit of the dear ones. A diligent study and application will bless you with better results.

I hope you must have received my letter of March 10, relating to the establishing of Satsang centre over there. Please convey my love to dear and encourage him to write to me all about his spiritual welfare.

Please be lovingly and regularly devoted to your holy meditations with deep faith and sacred earnestness. Master Power working constantly overhead will be extending all feasible help, grace and protection.

With love and best wishes,

Yours affectionately,

(KIPAAL SINGH)
Dear Children of Light,

Merry Christmas has come around once more. It is a season of great rejoicing for it commemorates the birth of Jesus Christ. However, if we are to make the occasion complete, it must be a season of meditation also. We must remember the cause for which Jesus was born and for which he sacrificed his life, and remembering it we must live by it ourselves for if we love him, we must follow his commandments.

Let this day be a day of stock-taking. Let us turn within, recognize our weaknesses and try to overcome them. Let us sink down all differences and sit together in all loving devotion for the Master. Let us purge our souls and cleanse our hearts, for unless we are pure, we cannot see the Kingdom of God, much less enter into it.

If you can love your God with all your heart, with all your strength and with all your soul and love your neighbours as yourselves; if you can forget your prejudices and differences, your hatreds and petty jealousies; if you can love even your enemies as Jesus did, who died uncomplaining on the cross, then all things shall be added unto you and you will achieve spiritual peace here and hereafter.

The love of the Master for you is boundless. The Path is difficult, but He is always with you to guide you. Live by what He says, turn within and do daily meditation, and as sure as the sun rises every day, you shall become the seers and the hearers of the Word.

My hearty love is always with you and I wish you all a Merry Christmas and a Bright and Happy New Year full of new aspirations and new resolves, on the Way back to God and His Kingdom.

(KIRPAL SINGH)
Dear,

I have received your loving letter of July 3, with spiritual diaries for the quarter ending June, 1971 and noted their contents.

I am glad to find that you are devoting time for meditations with the grace of the Master. The absence of perceptible inner revelations of light and sound principles might be attributed to some inaccuracy on your part which should be located and reconciled carefully. You have to look lovingly into the middle of whatever you see just in front of you with closed eyes - light or darkness and mental Simran of charged names, very very slowly, may be at intervals, so that the inner gaze is not disturbed. If you will do so lovingly without any clutching tendency on your part to have one thing or the other; for say 15 to 20 minutes at a stretch, the darkness shall get thinned and divine light sprout forth gradually which should be penetrated likewise. You should not strain your eyes, nerves or any other part of body during meditations and instead relax fully with inner attention fixed at the seat of the soul. This is so simple and easy, yet it requires a good deal of patience and honest effort, when you shall get established in your meditations.

Immediately after this vision practice of say 40 to 60 minutes, you should attempt to listen to the sound coming from right side. Any sound which is very clear and distinct should be listened with rapt attention. It will draw closer, grow louder and ultimately come from above.

Sincere effort and self surrender are most co-related. The former means to prepare the ground by living a well regulated and disciplined mode of living as enjoined by the Master and tenets of the holy Path. And the latter means to inculcate and exhibit rare humility and sense of abnegation to sit silently at the door divine - the seat of the soul in a spirit of deep receptivity to be blessed with whatever is deemed best for your spiritual welfare. You are invited to refer to my book 'The Wheel of Life' wherein you should read the Chapter under the heading: Life of Self Surrender. Its careful study will enrich your understanding and be helpful for developing receptivity.

I wish you to be lovingly and regularly devoted to your holy meditations with deep faith and sacred earnestness. Master ever working constantly overhead will be extending all feasible help, grace and protection.

With all love and best wishes,

Yours affectionately,

Kirpal Singh
Ref. No. __________________

Dear

I have received your spiritual diaries for the past four months ending October 1971, and a cheque for 25.00 dollars separately and noted their contents.

Your love offering is hereby acknowledged with thanks and shall be utilized for the holy Cause.

I am glad to find that you are devoting time for meditations with the result that you are blessed with the divine revelations of light and sound principles with the grace of the Master. These experiences should be developed further by more of accuracy, absorption and steadfastness. You should put in more of loving devotion and humility in practices when these shall become more interesting, fruitful and rewarding.

You have not acknowledged the receipt of my letter of September 13, in which you were written relative to your having a Satsang centre over there. I hope you got it all right and might be taking some effective steps in this behalf.

Please be regularly and lovingly devoted to your holy meditations with deep faith and sacred earnestness. Master Power working constantly overhead will be extending all feasible help, grace and protection.

With all love and best wishes,

Yours affectionately,

[Signature]

(Kirpal Singh)
I have received your loving letter of October 7, with spiritual diaries for the past months, on return from a local tour and noted their contents.

I am glad to find that you are devoting time for holy meditations with the grace of the Master. The inner divine revelations of their light and sound principles can be ensured and developed further by more of accuracy, absorption and steadfastness. It is the inner deep humility and keen sense of self surrender during meditations which invokes divine grace and the practices become more fruitful. A well regulated and disciplined life is an asset which ensures steady receptivity.

It is all right that dear has agreed to take over Satsang duties at You may notify Mr. Reno Sirrine about it and convey my love to and other members of his group.

You may undertake your graduate school studies and work towards doctorate in nutrition by working hard. Hard work is another name of genius. When you decide to execute your plans in any sphere of life, you should weigh all the pros and cons by considering all aspects. When you have once chartered your plans and decided finally then put in heart and soul. It is the single minded devotion which yields positive result. My love and blessings are with you.

Please be lovingly and regularly devoted to your holy meditations with deep faith and sacred earnestness. Master Power working constantly overhead will be extending all feasible help, grace and protection.

With all love and best wishes,

Yours affectionately,

(Kirpal Singh)
Dear

I have received your loving letter of May 14, with spiritual diaries for the past four months and noted their contents.

I am glad to find that you are devoting time for meditations with the result that you are blessed with the inner divine revelations of dim light and sound principles with the grace of the Master. These experiences should be developed further by more of accuracy, absorption and steadiness.

It does not matter if you could not pursue your medical training for one reason or the other. You should continue with your teaching job which is a noble vocation. You should try to put in more of heart and soul in your profession which shall bless you with more of inner peace and harmony.

It does not seem justified to suspend the satsang for summer months when you would be working near. You could request any other member of your group to work in your temporary absence, and the centre once established should continue to function regularly. You will appreciate that your centre has been published in the Sat Sandesh with firm timings and dates of Satsang to be held there, and as such all sincere efforts should be undertaken to continue it faithfully. You may request either of the dear ones, Viz. to continue. Please convey my love to them.

You must not be sceptic over your restricted inner progress. You should instead follow the golden principle: 'to do your best and leave the rest to the gracious Master Power working overhead.'

Please be lovingly and regularly devoted to your meditations with deep faith and sacred earnestness. Master Power working constantly overhead will be extending all feasible help, grace and protection.

With all love and best wishes,

Yours affectionately,

(KIRPAL SINGH)
Dear,

I have received your loving letter of July 21, 1974 and noted its contents.

Your interest in the field of natural medicines etc. is noteworthy when you wish to undertake the course and eventually relish to serve the suffering humanity is appreciated. If you have considered the issue in its wider aspects and can afford to undertake this course there can be no objection. However it is for you to decide independently on merits and once you set your target then forget all about other things and pursue it with all honesty and sincerity. You may be rest assured that my love and blessings are with you.

You have not stated about your meditations for which I hope that you are devoting regular time and enjoying inner peace and progress with the grace of the Master. Regular, faithful and accurate meditations ensure steady receptivity within and bless the child disciple in all spheres of life.

Please be lovingly and regularly devoted to your holy meditations with deep faith and sacred earnestness. Master Power working overhead will be extending all feasible help, grace and protection.

With all love and best wishes,

Yours affectionately,

(Kirpal Singh)
Dear

I am glad to receive your loving letter of June 11, 1959 and note that your inner light has been your saving grace. It remains steady and sometimes gets brighter. The inner light comes only when one is withdrawn within. You have to gaze penetratingly within this light, it will grow still more strong and give you further way up high up. The sound will also get strong if you will please act as indicated in my previous letter. The more one is devoted and attentive and accurate in meditation, the more fruitful are the results. When the mind needs no other thing except the Master, He who is always within with the initiates draws the veil aside and appears. So it is a question of developing an intense desire for Him. This is aroused by meditations and sweetly remembering and keeping Him in one’s heart to the exclusion of other things. You are fortunate in having inner links. Please steadily and lovingly carry on so as to progress from day to day.

&

Dear wherever you remain whatever you do to meet your financial obligations, remain devoted and in touch with the Master. You will be getting abundance of His ever-flowing Grace. The Master Power will remain ever with you and will be extending all feasible help and protection.

All initiates are on the way. Some have developed more than others. So some may have more faults and failings than the others. We have to hate the sin and love the sinner. Those who are doing the Master’s work in helping others to find a way back, need and command our help and more tolerance. Example is better than precept. My love goes to all and I wish everyone to live up to what the Master says. The more one would progress within, the more would he/she begin to realise what rightful way they have been given to walk on and in face of which all other things fade away into insignificance. You have been given a sterling Truth which will surely shine in the middle of any other metal. You need be afraid of none although you should love all, and walk safely and serenely in His benign protection. You may, however, explain lovingly about the extreme necessity of having a positive contact with Godly Light and Sound within to be developed from day to day, right now and not depend on mere promises. Depending on mere feelings, emotions and inferences is subject to error. Seeing is above all.

Should you happen to go and live in Vancouver there is enough of work to carry on there. You will find thirsty and yearning souls everywhere to need your help. Dear is here but may have to go soon as his visa expires shortly.
Regarding my trip to U.S.A. I have written to
This is the Master's work and when the time comes, the finances
will surely be found. There is, however, never a question of
compulsion. It is a service of love. The noblest service that
one can render in the world is to help people tread on the
Way back to their True Eternal Home. No financial service would
be great for assisting such a noble cause. But it should always
be loving and spontaneous. No compulsions, no taxation, no
impositions. If only learn to love, all other things will
follow of themselves.

I am anxious for your spiritual progress and will be
glad to hear about the same at regular intervals.

With love and best wishes,

Yours affectionately,

KIRPAL SINGH
(KIRPAL SINGH)
Dear I

Thank you for your letter of June 13th, 1963.

I am glad that my tour has been going on well with the Grace of God. I wish that all souls may be united into God again, that is the mission before me, in life on this earth. But full benediction is not achieved by the seekers of truth because of the negativeness being in full force against God's work. At this time, all hands should be joined together against the negative to save the world from destruction, specially by those who have been united on this Path which leads back to God.

I wish the initiates should remove all petty misunderstandings from amongst themselves in a loving way and have reliance on one another for the One Common Cause of humanity. An ounce of practice is more than tons of theories. We should set an example in loving one another in all sweet humility, so that we may become helping factors to God's work. If, however, we work in a negative way, it will be a sorry state of affairs. I am afraid there is a want of loving cooperation and regards amongst those who have been chosen as helpers on the Path. I wish there should be more understanding and love at heart for each other for you are the people on whom the future depends. I have love for each one of you.

Yes, it is a long time, eight years of parting, but it was only physical, for in truth you and the rest are very near to me.

Please wish all well from me,

With all love,

Yours affectionately,

Kirpal Singh

From: His Holiness, Sant Kirpal Singh Ji Maharaj, Bonn.
I have received your loving letter of June 1, 1974 and noted its contents.

I understand that you are studying music to be taken up as a vocation for life. If so there can be no objection if you have chosen this profession. Like other sensual enjoyments, music is also one of the sense pleasures. Outer music brings up to the verge of matter but cannot transcend further whereas inner heavenly Music of the Spheres leads the soul on to the True Home of the Father. Outer music awakens the dormant mind whereas inner music or Word awakens the spirit. You see both are diagonally opposite. You may refer to my book; 'Naam or Word'. Its diligent study shall enrich your understanding on the subject.

I hope that you are devoting time for holy meditations and enjoying inner peace and progress with the grace of the Master. Regular, faithful and accurate meditations ensure steady receptivity within and bless the child disciple in all spheres of life.

Please be lovingly and regularly devoted to your holy meditations with deep faith and sacred earnestness. Master Power working overhead will be extending all feasible help, grace and protection.

With all love and best wishes,

Yours affectionately,

(Kirpal Singh)
Dear 

I have received your loving letter of post dated April 7, 1971 and noted its contents.

Your long search after Truth has ultimately guided you to the right place. It is due to the evolution of some rare noble Karma that one yearns for spiritual progress. The gracious Master Power working and controlling the destiny of child humanity leads the sincere seekers to the Living Master. It is good that you are preparing yourself for holy initiation. You should attend the local Satsangs, study sacred books relating to the holy Path and grasp theory which precedes practice when you feel satisfied and desire to be initiated into the Mysteries of the Beyond, you may apply for initiation through the local representative and necessary arrangements will be made for putting you on way back to God.

Bhaktivedanta Swami is an Indian teacher preaching Krishna consciousness over there in the West. You may please note one of the fundamental and demarcating line of difference between the holy Path and other schools of thought that the former is of transcendence and introversion within after rising above body consciousness, whereas the other prescribes outer chanting and other formularies. You may refer to my book 'The Crown of Life' which deals with various Yogas with an exhaustive discussion of Surat Shabd Yoga. Its diligent study will enrich your understanding and be helpful for inner progress.

I hope you are abiding by the dietary regulations of strict vegetarianism which is one of the essential basic pre-requisites for taking up the holy Path.

With love and best wishes,

Yours affectionately,

Kirpal Singh
RUHANI SATSANG

SAWAN ASHRAM
GUR MANDI, DELHI-7,
(INDIA)

Dated December, 1970.

Ref No. ________

Dear ;

I have received your spiritual diaries for the past four months and noted their contents.

I am glad to find that you are devoting time for meditations with the result that you are blessed with the inner revelations of divine light with the grace of the Master. Please look lovingly into the middle of this light and do mental Simran of charged names very very slowly, may be at intervals, so that the inner gaze is not disturbed. The light will grow steady, brighter and ultimately open to give you further way up.

The listening of the sound current from right side is an important and essential aspect of meditations for which equal and regular time should be devoted daily for having steady progress on the Path. You are advised to be very careful in this behalf. Immediately after vision practice you should attempt to listen to the sound coming from right side. Any sound which is very clear and distinct should be listened with rapt attention. It will draw closer, grow louder and ultimately come from above.

Please be lovingly and regularly devoted to your holy meditations with deep faith and sacred earnestness. Master Power working constantly overhead will be extending all feasible help, grace and protection.

With love and best wishes,

Yours affectionately,

KIRPAL SINGH

(KIRPAL SINGH)
Dear

I am in receipt of your loving letter of January 12, 1961 and note its contents.

I am sorry for your two falls on the ice within two days. But thanks to the Master that no bones were broken and saved from the ultimate hardships. Such of the events are normal features of life and one need be cautiously careful.

I am glad you enjoyed the Christmas message. The Birthday message was also mailed in time which you must have equally enjoyed. Fortunate are dear ones who have been accepted into the sacred fold.

I am glad to note that you hear the holy sound current perceptively even when you are equipped with stethoscope. But you have a difficulty for keeping wide awake during your meditations. For warding off sleep during meditations one should not let the gize slickened as it is during these periods of slackness that sleep overtakes. You are correct when you say that you have a deeper understanding of the spiritual teachings than others. This is the resultant reaction of your growing receptivity and awakening to your awareness. Knowledge with patience results in serene assimilation and the more one is attuned within with the holy light and sound more enjoyable and happy one feels.

I note about your yearnings for seeing the Master amongst you personally. The tour programme is before me and possible it may be before long when it is fixed up, when all of you shall know of it. Your loving, cooperative and combined efforts shall hasten my visit.

Please do not be alarmed about the so-called prophecies as these seldom come out true. For those who know say not and those who say know not is a useful adage. The benign Master Power working over the heads of His loving children is sufficiently strong enough to extend all feasible help, grace and protection to them under all circumstances. They need practice and be faithfully devoted to their meditations which would enable them to be calm and serene/peaceful.

I thank you for your good wishes for my physical birthday. Dhi Hardevi reciprocates your remembrances and conveys her good wishes.

Please be lovingly devoted to your holy meditations. All help and grace shall be forthcoming.

With all love and best wishes,

Yours affectionately,

Kirpal Singh
(Kirpal Singh)
Dear

I have received your loving letter of Sept. 13, 1961 and noted its contents.

I am glad that you have received a copy of the recently issued circular and value its worth. The sacred teachings of the Master offer a positive approach for the problems of life. The gracious Master desires that the little babes should progress from crawling to walking and ultimately be on their legs, so as to become a source of help and inspiration for their less fortunate brethren, in leading them to the holy feet of the Living Master. It is gratifying that the purpose of sending out this circular is being coming out fruitful and many a dear ones have taken a new start with resolute will and fortitude. You will appreciate that occasional strong doses are needed for the general improvement, but in no way the personal liberty of the child disciple is circumscribed or foraged. It is a piece of advice, and should have its own reciprocal effect.

It is so good that you had the privilege of having your harmonious meditations for about a week when you state having been blessed with a form amidst brilliant golden light and the sound current grew stronger, with the grace of the Master. Such a sublime phenomena can become a regular feature only if you learn to abide hundred percent by His commandments. Physical plane is a land of duality and in order to achieve that superb stillness and recession within, you will have to say good bye to the glow and glory of this world. By gradual and persistent efforts, the mind will become clearer with the aid of divine light and holy sound current, and it would enjoy complete inversion within with the grace of the Master. I find that you cannot meditate properly in your present circumstances, while having moved to this present household, and cannot give more time to your holy meditations. Seclusion and solitude are truly beneficial for the spiritual practices, but your presence in this sphere is surely a blessing and encouragement to your colleague who values your presence. You have ample chances of serving the holy cause, which is a rare privilege and a reward in itself.

Please be lovingly devoted to your holy meditations with deep faith and sacred earnestness. Master Power working overhead will be extending all feasible help, grace and protection.

With love and best wishes,

Yours affectionately,

(Kirpal Singh)
Dear

I have received your loving letter with diaries for the past months and noted their contents.

I am glad to find that you are devoting time for meditations with the grace of the Master. The inner divine revelations of light and sound principles can be ensured and developed further by more of accuracy, absorption and steadfastness. It is the inner deep humility and keen sense of self surrender during meditations which invokes divine grace and practices become more fruitful.

Your two questions are replied ad seriatum:

1) The soul enters the mother's womb at the time of conception and artificial abortion means mortality.

2) The best way to avoid telling lies is to develop silence which is a great virtue. Besides it is by regular introspection when you will recall the number of failures in this particular sphere every evening at the close of the day, you will be able to overcome. It is a constant and long drawn struggle for inner purity and perfection. Please refer to 'Receptivity' available from local Satsang.

You should follow these three principles for overcoming this habit of telling lies:

1. Think before you speak as to if it is necessary.
2. If so, is it true what you are going to speak?
3. Is it kind?

You will find that such a course will enable you to avoid undue speaking and ultimately develop a habit of serene silence which shall be of immense help for inner receptivity during meditations.

I hope you benefit from the local gatherings which are invariably blessed with the divine radiation of the Master Power. Satsang serves as a strong hedge around the young sapling of initiation.

Please be lovingly and regularly devoted to your holy meditations with deep faith and sacred earnestness. Master Power working overhead will be extending all feasible help, grace and protection.

With love and best wishes,

Yours affectionately,

(Kirpal Singh)
Dear

Your loving letter of May 30, 1973 is to hand. I appreciate your kind sentiments and humble supplications to become a true disciple and also your overwhelming gratitude for the manifold blessings of the Master. A grateful heart becomes the abode of all virtues.

Spiritual perfection is a slow but steady process of self transformation by living up to the holy commandments of the Master both in letter and spirit.

I hope you are doing well with your holy meditations which is the bread of life and water of life.

With love and best wishes,

Yours affectionately,

(KIRPAL SINGH)
SWEET REMEMBRANCE OF GREAT MASTER KIRPAL

Dear Friends: This letter is written as a direct result of the many letters, Satsangi visits, telephone calls and other communications we have received since the final ascension of our beloved Master, Param Sant Kirpal Singh Ji, in August, 1974.

A great deal has happened in the Sangat since that fateful day; but this communication is not intended to discuss what is past. We are concerned with the eternal Now, and have no intention of preaching, lecturing, instructing or advising. We wish only to share some thoughts in sweet remembrance of our Great Master. Whatever truth may be herein is due solely to His Grace.

As embodied souls we live in a world pulsating with negative vibrations and destructive energies. It is often difficult for us not to be involved in the negativity that impinges upon us from all directions. Nevertheless, our Master Kirpal gave us the living power to transcend these negative energies, to be in the world, performing our daily duties, but not of the world. Our Master Kirpal gave us the means to tap the very center of our soul-being, to experience that divine music which is the essence of God and of ourselves. Master Kirpal instructed us to GO JOLLY! He told us that we should feel grateful, good and positive about things—NOT because our world is good and positive, but because our true Home—our inner CONSCIOUSNESS—is good and positive. We must focus our attention upon what is true and good and loving.

We are embodied SOULS, and our most important relationship with our Master Kirpal is on the soul level. Our soul is not subject to the everchanging winds of negativity that buffet this world. All our negative emotions arise from a false sense of identity. We have submerged ourselves in a negative egotism instead of immersing ourselves in the living, redeeming power of Naam. Every painful feeling that we experience, every twinge of despair, envy, sadness, guilt, antagonism and insecurity is the sour fruit of our futile egotism. By initiation we received the greatest blessing possible from our Master Kirpal. He taught us how to transcend the negative personality and to rise in communion with the true Master within. We received initiation from One Who was a living Embodiment of the Supreme Lord whilst He was on this earth. He is still a living Embodiment of Anami Purusha on the inner planes. Our link with Master Kirpal is eternal, not limited by the bonds of time and space. Many initiates (ourselves included) can attest to the fact that they have become even more conscious of Master Kirpal’s living Presence since His departure in August 1974.
Master Kirpal awakened in us faculties that had long since become deadened through constant contact with the downward flow of mind and matter. Master Kirpal never claimed that He put His devotees in contact with something that was not there before. But He ripped away the veil of the negative power within us and revealed to us that we are never really separated from our true Self, our soul. Our apparent separation has been one of consciousness. Like the prisoners in Plato's cave, we had never ventured into the world of sunlight outside the cave, and so this world did not exist as far as we were concerned. But Master Kirpal revealed that this world of spiritual sunlight does exist! It makes no difference what name we give to the ultimate reality, REALITY is there! We may use the words Anami Purusha, God, Supreme Lord, Truth, and a million other words---but THAT exists! REALITY is!

When we contact the holy power of Naam, the true Christ-Power, we lift the veils of illusion that hang between the human mind and the ultimate spiritual reality. We recognize that the veils of the petty ego-self block the inner light. Our Great Master Kirpal has given us the complete technique for penetrating the dark veil into the innermost secret of human happiness, the eternal Naam. Why should we seek elsewhere? For what? If we initiate are not receptive to our Master Kirpal's impressions, who is at fault? Do we cling to the false notion that something is wrong "on the inner planes," that our beloved Master is not sending out signals to us? Are we like the man with a broken television set who foolishly complains that the T.V. station will not send him any pictures?

The Master who initiated us is the omnipresent and eternal Living Master for us. We are not merely repeating the ageless teachings; we are NOT "setting up a new religion." Sant Kirpal's mission on this plane of materiality is completed, but His mission with each individual disciple is far from completed. No true disciple should let anyone usurp the place of his or her Master in the inner heart of love. The inner Master may—or He may not—direct one to assist in some true spiritual work; but such inner direction should be tested and tested over and over again. To let an outer emotional or intellectual involvement take the place of the true inspiration of one's own Master is also to court the most dire karmic consequences.

We have no part in making God's decisions. The relationship between each individual devotee and his or her own Master is that of soul to soul. If we were privileged in serving Master's cause in some way, this was Master's way of giving us an opportunity for further growth. It was our good fortune. We are not responsible for any soul coming to the Holy feet of a Godman. We can comfort, serve and advise others. That is all; and it is enough.
Each one of us signals to a more powerful Teacher and Helper when we inwardly acknowledge our own helplessness. "When the disciple is ready, the Guru will appear." A dear Satsangi sister wrote us the following words: "It is not up to me to concern myself whether or not Master has this or that or no successor. I figure that if God heard my weak cry He will certainly hear the cries of those who are seeking the Truth that sets us free."

If we diligently strive to keep our Master's commandments, we will contact the Living Master within, and we will receive accurate guidance. However, we ourselves are subject to errors and emotional weaknesses; we should always test our own desires, reactions and judgments. Our greatest responsibility is to follow the commandments of our Master Kirpal diligently and untiringly. We may make excuses in that we have difficulty in following His instructions; but we must proceed along the Path that He alone charted for us. The Master Power is eternal, and is never in error. Truth will eventually prevail, and falsehood will surrender.

Apart from our individual work of self-change, what can we do? Master constantly counselled us to be His ambassadors in our everyday lives. An ambassador is an authorized representative or messenger. Master did not use words lightly, and so this injunction is very important. While an ambassador is NOT that which he or she represents, a good ambassador will be able to reflect some aspect (no matter how small) of that Power which he or she represents. To the degree that we obey Master Kirpal's commandments and let His light shine through us---to that degree our Beloved Master is still manifesting on this suffering and strife-torn planet.

We should abandon any useless effort that takes us away from remembrance of our Master. We should put aside our ego-directed drives, such as contriving, desiring, hoping, arguing, claiming, speculating, influencing, debating, attaining and dominating. We contact the Master Power with increasing efficiency as we loosen our attachments to our ego-directed drives. When we put aside these negative attributes, we take a giant step towards eventual liberation.

Since August, 1974, there have been several claimants for the spiritual "successorship" to the Great Master Kirpal. Whether or not one of the claimants is right and all the others are wrong is beside the point. The point is that the claiming and speculating, debating and arguing, announcing and denouncing, have taken many devotees from the most important and needful sweet remembrance of the Great Master Kirpal.
We are completely dependent upon our receptivity to the Master Power. Outer journeys, hither and yon, will not lead us to any ultimate truth. This inner dependence is highlighted by the self-introspection diary. If the results of our daily thoughts, words, and deeds are harmful to ourselves or others, we need more consciousness, more receptivity to the Master within. We have wasted so much time in outer propagandizing and debating that we have too often lost sight of the simple commandments that our Master Kirpal gave us. The Mystical Path of Love has the simplest morality possible: "Whatever helps us to awaken our inner receptivity to the Master Power is right; whatever keeps us hypnotized in the bondage of negativity and separation is wrong."

We have also been questioned concerning the various organizations that were set up to promote Master’s mission. We can only answer such questions within our own limited understanding, as individual devotees on the Path of our Great Master Kirpal. Most of us realize that any organization has a mere temporal value, and the organizations set up to serve the planetary mission of Param Sant Kirpal are obviously temporal. History is full of moribund organizations which have perpetuated themselves after the original Teacher or Inspirer has departed from this planetary sphere. To what degree Ruhani Satsang has a necessary function as a viable spiritual-educational organization, we do not know; and we have no wish to debate the question in this context.

Nevertheless, we feel strongly that—apart from our primary devotion to Simran, Dhyana, and Bhajan—we should always be mindful of the loving association of those who love our Master, Sant Kirpal. Let us be aware of our individual relationship with our Master; and let us continue our loving association with each other in our Satsangs, which are devoted to sweet remembrance of the Great Master Kirpal Singh Ji, Whose inspiration and Grace will guide us all, if we merely "let go and let God." Sant Kirpal Singh Ji was and IS a Living Miracle of the Holy Path. Whilst in the human body He had gone through every temptation, pain, hardship, and confusion that besets all seekers after Truth. But He had heroically sought the highest Truth and He Found the Crown of Life. The authentic Master personally experiences all-Truth, all-Love, all-Wisdom. The hypnotized person, swayed by the negative power, merely believes what he or she has been told. The Truth is within! Only there!

Let us share our love in constant remembrance of Kirpal, Who is nearer than hands or feet. We have been given a tiny glimpse of the Harbor of Love and Light; let us sail eagerly and sweetly onwards. With all Love in His Holy Name,

George and Margaret Arnesty Jones

To Members of the Sangat

(Conclusion)
CHRISTMAS MESSAGE FOR 1953

I convey you my sincere and heartfelt love on this day and wish you speedy progress on your Way back to your Eternal and Blissful Home.

We have passed ere now so many Christmas eves. There is need to take stock today where we stand, how far we have travelled. Let us do so calmly but seriously. The journey may be long but has to be completed. Life is running out, let not vain pursuits deflect us from our Noble Path. The Grace of the Master is overwhelming and is extending far and wide. Through His Grace the long and tedious journey back to our Eternal Home is cut short and rendered full of melodious charm. His Gracious Love is overflowing, and He is waiting for you at the door back of your eyes to receive you. Ours is to invert and sit at the door. Let our steadfast devotion and whole-hearted Faith in Him stand in our good stead.

My best wishes are always hovering around you to quicken you on your Way back to God.

KIRPAL SINGH
